Description:

An elegantly engraved and highly detailed map of Maryland and Delaware, with a large inset plan of Baltimore.

The map is based upon Tanner's work in the early 1840s. Shows counties, towns, roads, canals, lakes, etc.

While often referred to as the German Mitchell, this characterization is unfair, as the work appears to be a collaborative effort which predates the sale of Tanner's plates to SA Mitchell. Of great interest is the suggestion that the work was published in Hildburghausen, Philadelphia and Paris, although no evidence of a French edition is known to us. The engraving quality on this fine item surpasses its American counterpart.
