### Description:

Striking map of Cuba, along with a detailed plan of Havana, and a view of the city and the entrance to its harbor, which appeared in Raspe's *Shauplatz des gegenwaertigen Krieg*.

The plan is highly detailed with a numbered key to the city's major monuments. The charming view features El Morro fortress with a chain across the entrance to Havana harbor.

A very attractive three in one map and plan of Cuba and its capitol under siege by the English.
