#### Description:

#### ***A Rare Variant!***

Rare early map of China, published by Martineau du Plessis in Paris.

The map is printed from a copper plate originally engraved by Petrus Kaerius (Peter Vander Keere) Johannes Cloppenburg's *Atlas Sive Cosmographie* in 1730. This state of the map has been extensively re-worked for Martineau du Plessis's *Nouvelle Geographie*. Most obvious are the change in the title (to the French spelling of China) and the modification to show Korea as a peninsula, not as an island.

#### **Rarity**

This is the first time we have offered the map for sale in more than 20 years.
