Description:

First Edition, Second Issue of the First Miniature Mercator-Hondius Atlas.

This is the "corrected" 1607 issue of Hondius-Claesz-Janssonius *Atlas Minor*, the first edition of the famed Mercator-Hondius miniature atlas.

7 African maps, 11 Asian and Middle Eastern maps, 5 American maps, 6 ancient and biblical maps.

The atlas was first printed, hastily and sloppily, in 1607 - Koeman and Van Der Krogt suggest this was because the book needed to be ready for the Spring 1607 Frankfurt book fair -

Editions, Variants, and Rarity

Evidently a variant between Koeman Me 186 and the next Latin-language edition (1610A) Me 189.

- Updated engraved title page, with the continents and their names engraved on Atlas's globe.
- Printed page numbers.
- Page 571: Morea is printed with text on verso, not pasted down to a map of Candia.
- Page 583: Egypt is printed with text on verso, not pasted down to a map of Macedonia.
