Description:

Uncommon plagiarized edition of Ortelius's map of the eastern coast of the Adriatic. The map shows the course of the Danube river and numerous cities, towns, lakes, islands, and more. A scale is provided in the lower left.

This work appeared in the unauthorized Italian version of Ortelius's *Epitome*, the *Theatro del Mondo*. This was first printed in 1598, then subsequently at least seven times between 1655 and 1724, well after Ortelius's own *Epitome* ceased to be published. These later editions had several printers, including Turrini, Banca, Curti, and Lovisa. This example appears to be from the 1655 Turrini edition.
