Description:

Fine example of the French edition of Carey & Lea's sought after map of Alabama.

Hand colored by counties. Shows early roads, rivers, towns, bays, court houses, and other early details. General Jackson's route to New Orleans and the Government road Nashville to Natchez are shown. Several early forts. The west still reflects several areas reserved to the Indians, as does the massive Upper Creek region in the east. West Florida is still not yet part of the States.

Overall plate size is 24x17 inches, surrounded by text describing the state, its population, governors, religion, education, commerce, climate topography and other details. From the French edition of Carey & Lea's American Atlas. The French edition is known for being a superior work, using better paper and a superior engraving technique.

A fine wide margined example in old color.
