Condition: VG+
Size: 7.5 x 4.5 inches
Price: SOLD

Description:

Decorative double hemisphere map of the world, showing California as an Island, partial coast of New Zealand attached to Terra Antarctica, incomplete Australia, NW and NE Passages and land bridge extending from Asia to America, except for narrow strait above California. Decorative scenes show the 4 elements (fire, air, water and earth) in the four corners and wind heads between the hemispheres. The map is reminiscent of the work of Jacques Peeters in Amsterdam, but we could not confirm the source.
