Description:

A nice example of Coronelli's striking 4 sheet map of China, extending from the Korean Peninsula and the Island of Formosa to the western provinces and Northern Hainan Island. One of the most sought after of all large format maps of China. This example is unusual in that it was issued joined and folded into the atlas. Excellent wide margins, with just a bit of staining in the upper margin in 2 places, far from the printed image. A fine dark impression of this highly sought after map. Only 2 examples of the map have been offered in a dealer catalogue in the past 10 years.
