### Description:

Finely engraved map of Northern Spain and the Sea of Biscaya, based upon the work of Cantellida Vignola and engraved by Aubrey Barbey, who apparently engraved a number of maps for Rossi.

The map extends from the Bayona and the Portugese border on the Western/Atlantic Coast to Cabo d'Aviles in Asturia and extends inland to show the entire border with Portugal to the south and Regno di Leon toe the East. The details within the map are exceptional and reflect the fine topographical style which characterizes the work of Rossi in this period. A prime example of this hard to find and highly sought after map of Galicia.

The map covers the northwestern Atlantic coastline of Spain from . A rare and highly decorative map. The map is listed in collection of the famous french map maker Jean Baptiste Bourguignon D'Anville: Collection d'Anville ; 01684 of the Bibliothèque nationale de France.
