#### Description:

Nice example of the Bradford's map of Michigan. The map is hand colored by counties and shows very early railroads, towns, rivers, forts, post offices and other details.

Bradford's atlas was a departure from other atlases of the period. Along with HS Tanner, Bradford produced an elegant, well engraved large format atlas on high quality paper.

The 1830s were a fascinating transitional period in the US, and in domestic cartographic publishing. Bradford's work is without question an important part of this era. The maps were engraved by GW Boynton or S.Stiles, or Sherman & Smith.
