Stock#: 45522
Map Maker: Cary
Date: 1806
Place: London
Color: Hand Colored
Condition: VG
Size: 20.5 x 18 inches
Price: SOLD

Description:

An attractive and highly detailed map of the Northern portion of the United States, from John Cary's *New Universal Atlas*.

The map includes the District of Main and Ohio, which is still called The Western Territory.

The map contains many worthy features. At the mouth of the Cayanhoga River on Lake Erie, there is a note concerning a 70 ft rock which makes navigation dangerous. Another note indicates that the easiest passage from Lake Erie to the Mississippi and Ohio Rivers is via the Sandusky and Sioto Rivers. A proposed fort is noted south of Detroit. The western boundary of the 6 Indian Nations in western New York is noted. There are similar notes throughout the map, including annotations on each of the Great Lakes.

The map is highly detailed and includes towns, roads, rivers, Indian details, springs, and a host of other information. A marvelous collector's map.

Detailed Condition:

Some offsetting.
