#### Description:

Scarce map of the Territories of the Western United States, from Morse's *General Atlas of the World*.

The map captures the Transmississippi West shortly after the Gadsden Purchase, with many of the large territorial configurations still in evidence, including a massive Oregon Territory (including all of Washington & Idaho and extending beyond the Rocky Mountains, Utah Territory (including Nevada and part of Colorado), New Mexico Territory (including Arizona and part of Colorado), Nebraska Territory (including Montana, Wyoming and part of the Dakotas), Kansas Territory (including much of Colorado); and Minnesota Territory (including the Dakotas). An early accurate depiction of Indian Territory is also given.

The atlas and map are quite scarce, this being the second time we have offered the map for sale.

#### Detailed Condition:

Minor foxing, dark spot upper right
