### Description:

Striking and highly detailed map of part of Argentina.

Excellent topographical and geographical detail throughout. Extraordinarily detailed for the period, perhaps the best large format English language map of the region during the early 19th Century. Pinkerton's now rare elephant folio atlas is one of the best engraved works of the period. While lesser known than the more common atlases by Cary & Thomson, it is a superior work, especially in the detail of the maps.
