Description:

Rare miniature chart of St. Tropez, France, published by William Heather in London.

The chart is oriented with west at the top. It includes good detail of the region of St. Tropez, illustrating how much has changed over the more than 200 years since the map was made. On the slopes of St. Maxime, across the Golfe de Saint-Tropez from St. Tropez, Heather's map shows "Fishing Huts" where now there are hundreds of beautiful coastal villas.

The chart appeared in Heather's *The New Mediterranean Pilot* . . . , published in London in 1802.

Rarity

The charts from Heather's *New Mediterranean Pilot* . . . are extremely rare on the market. This is the first example of the chart we have ever seen.

This is also one of the few antiquarian maps specifically of St. Tropez that one is likely to ever see.

Detailed Condition:

Trimmed into the plate number at the top (as often the case). Binding marks along the left neatline. Minor toning at the bottom edge.
