**Size:** 14.5 x 10 inches  
**Price:** SOLD

### Description:

Detailed map of Mexico and Southwest and Southern parts of North America, published in Paris in 1812.

The map extends as far north as Santa Fe and Taos New Mexio, with nice treatment of Texas and the Southwest.

Published 2 years after the start of Mexico's 10 year struggle for independence from Spain and at a time when the US was contemplating its claims under the Louisiana Purchase and whether these extended to the Rio Grande, an issue which would not be settled until the Adams Onis Treaty of 1819.
