Stock#: 92242
Map Maker: Seller
Date: 1679
Place: London
Color: Uncolored
Condition: VG
Size: 2.25 x 3.75 inches each
Price: \$ 195.00

Description:

"Germany," a map produced by John Seller in 1679, offers a detailed representation of Germany during a significant era in its history. As a component of the *Atlas Minimus*, the map exemplifies the late 17th-century geographical knowledge and cartographic conventions.

The map encapsulates Germany during a period marked by the complex structure of the Holy Roman Empire, which comprised numerous semi-autonomous regions across Central Europe. The representation provides an understanding of the region's geographical and political landscape during the late 17th century.

Significant geographical markers and political divisions are indicated on the map, reflecting the intricate administrative structure of the era. The map offers a clear understanding of the geopolitical landscape of Germany during the time.

Accompanying the map, an engraved table titled "The Empire of Germany is Divided into X Circles The Kingdom of Bohemia not included" delineates the primary divisions within the German realm. This table offers a detailed insight into the administrative divisions of the Holy Roman Empire during the period, notably excluding the Kingdom of Bohemia.

John Seller's "Germany" map delivers a comprehensive geographical representation of Germany during the late 17th century. The associated table of circles within the Empire offers further context to the map, providing an understanding of the political landscape of the region during this era.
