### Description:

Scarce and highly detailed map of Florida, published by the General Land Office.

The map is one of the best of the General Land Office Survey maps of Florida and one of the few issued in original outline color. Shows the extent of the state survey work in Florida, current county configurations, early roads in the southern part of the state, railroad lines, etc. An essential map for Florida collectors.

The present example was found in a collection of rolled maps, and is therefore not suffering from the usual fold splits and fold weakness which is normal for this map.

### Detailed Condition:

Minor loss of neat line at lower left margin.
