Description:

Wonderful highly detailed GLO map of Colorado Territory, colored by Counties. The map provides one of the most detailed and important early looks at the development of Colorado. There extensive notes regarding the Gold, Silver, Copper and Iron mining regions, as well as the results of some of the earliest surveys of the state. Issued folded and backed with linen. Minor breaks in the folds and and the usual notching in the corners to accommodate binding, else an excellent example of this scarce and highly desirable early map of Colorado Territory.
