## Venise Ville Capitale de las plus Celebre et Illustre Republique de l'Europe

**Stock#:** 0346  
**Map Maker:** de Fer  
**Date:** 1700  
**Place:** Paris  
**Color:** Outline Color  
**Condition:** VG+  
**Size:** 13.5 x 9 inches  
**Price:** SOLD

### Description:

Striking panoramic birdseye view of Venice, including each of the Islands and the mainland in the background. Two large banner cartouches adorn the map, along with a key locating the various quarters. A relatively unique view of the city, illustrating buildings, canals, etc. Nice dark impression. From the first edition of De Fer's Atlas Curieux. A couple of small wax spots, barely touching the view.

### Detailed Condition:
