### Description:

Regional map of the Mediterranean, extending from Barcelona, Ibiza, Majorca and Minorca to Sardinia and the coast of North Africa. Shows towns, roads, rivers, islands, mountains, and a host of other details. From Vandermaelen's remarkable 6 volume atlas, which if combined as globe gores forms an immense globe. Vandermaelen accomplished the first atlas mapping of the world on a uniform scale. His treatment of the Western US is a landmark in the history of the cartography of the Western US, undertaking to map in 20 sheets a region which American publishers were virtually ignoring. A fine unfolded and probably separately issued example of this pair of maps covering the Baja.
