## North America

**Stock#:** 10117  
**Map Maker:** Johnston  
**Date:** 1861  
**Place:** Edinburgh  
**Color:** Outline Color  
**Condition:** VG  
**Size:** 23 x 17 inches  
**Price:** SOLD

### Description:

Marvelously detailed map of North America, featuring several transitional western borders, including a massive Nebraska, which extends from the Missouri to Canada and the Rocky Mountains.

Colorado appears for the first time. New Mexico is above Arizona (Baylor Line). California, Nevada and Utah are all misconfigured. Excellent early detail in the Northwest and Western Canada, based upon earlier work by the Hudson's Bay Company and the various exploring expeditions of the US Government. Alaska is Russian America.
