Nova Virginiae Tabula

Stock#: 10385
Map Maker: Ogilby
Date: 1671
Place: London
Color: Hand Colored
Condition: VG+
Size: 14 x 11.5 inches
Price: SOLD

Description:

Gorgeous full color example of Tooley's 8th Derivative of the John Smith map of the Virginia & Chesapeake region. The map is based upon the earlier maps by Hondius and Blaeu, a bit smaller, but with 3 large cartouches, one of which includes fascinating indigenous animals, including a llama and horned long haired sheep. Smith's map of the Chesapeake region was the basic prototype of all regional maps until Augustine Herman's exceedingly rare 4 sheet map published in London in 1673. Tooley notes that the map derives from the first state of the Smith map, and therefore lacks the longitude lines added in later states. An attractive full color example of this increasingly scarce map.
