### Description:

Three detailed regional maps by Ortelius. The first map covers Asia Minor, Cyprus and the Eastern Mediterranean. The second map shows the region around the Nile, as far as Aswan. The third map shows the environs of the City of Carthage. The printed image is good, but the map has some marginal damage, which extends nearly to the lower left and right corners of the map. The map would frame up nicely, despite the flaws. Normally a \$500.00 map.
