Description:

Nice full color example of Speed's map of Virginia and Maryland, which was engraved by Francis Lamb and first appeared in the enlarged edition of Speed's Atlas in 1676. The map is one of the first to incorporate the information from Augustine Hermann's exceedingly rare and important map, issued 3 years prior to the map's publication. Fascinating description of the Maryland and Virginia in English text on the verso. Wide margined example, in attractive full color. A bit toned overall, with an archivally repaired tear in the lower left corner, extending into and then across about a 4 inch section of the map (well repaired), and a bit of discoloration on the verso from a prior non-archival repair (which does not show on the front of the map).
