Description:

A gorgeous full color example of Munster's map of Europe in the shape of a Queen. During the late 16th Century, a few map makers created these now highly prized map images, wherein countries and continents were given human or animal forms. Among the earliest examples is this map of Europe by Munster, which appeared in Munster's Cosmography. A fine example in full color, from a German edition of Munster's Cosmography. Includes the second text page. The verso also includes a full color scene showing three monarchs.
