Description:

Flawless dark impression of Speed's map of Virginia and Maryland, which was engraved by Francis Lamb and first appeared in the enlarged edition of Speed's Atlas in 1676. The map is one of the first to incorporate the information from Augustine Hermann's exceedingly rare and important map, issued 3 years prior to the map's publication. Fascinating description of the Maryland and Virginia in English text on the verso. A remarkable wide margined example, with a flawless dark impression. Without a doubt, the best example we have ever seen. While modern color examples of this map appear quite frequently on the market, it has become quite rare to see a fine uncolored example.
