Map of the Regions About The Unknown North Polar Sea showing the Lates Exploring Expeditions

Stock#: 13567
Map Maker: Tunison
Date: 1883
Place: Jacksonville, IL
Color: Color
Condition: VG+
Size: 12.5 x 10 inches
Price: SOLD

Description:

Detailed map of the North Pole, showing the tracks of the Party U.S. Polaris in 1872-1873 to Grinnell Island and the Nordenskiöld expedition of 1878. HC Tunison's Peerless Atlas is one of the most interesting American Atlases of the late 19th Century. Published in Jacksonville, Illinois, the title page also lists, New York City; London, Canada; San Francisco; Atlanta, Chicago and Cincinnati as places where the atlas was published. Tunison's Atlas is a fascinating cross over of styles between the modern commercial publishers of Chicago (Rand McNally and Geo. F. Cram) and the still active older map publishers (Colton, Mitchell, Johnson and Gray). The maps employ bright colors and identify counties and townships, towns, railroads, railroad stations, rivers and many other minute details, plus include a decorative printed border (including HC Tunison's initials in the corners), but now employ the later printing methods employed by the modern firms. The result is an attractive and unique map for the period. For this reason, Tunison's maps have always been prized by collectors as an excellent example of a blended late 19th Century printing style. In recent years, Tunison's maps have been utilized in map exhibitions at the New York Public Library and elsewhere. A fine example, employing Tunison's trademark colors and border. An unusual map, showing
