Description:

Rare outline color example of John Reid's map of New Hampshire. The map is drawn largely from Carey's map by Samuel Lewis, issued the prior year. An excellent topographical map, showing the counties, boundaries, principal towns, mountains, rivers, islands and many other details. John Reid's American Atlas was the second folio sized atlas published in the US. Reid's atlas was originally issued to accompany Winterbotham's Historical, Geographical, Commercial and Philosophical View of the United States.
