#### Description:

Extremely rare first edition of Cram's first map of Missouri. One of the best maps of Missouri to appear in a commercial atlas during the period and one of the rarest. George Cram would become one of the most prolific atlas publishers of the last 19th and early 20th Centuries. His earliest maps, issued in the late 1860s, were marvelous separately issued railroad maps. His success led to the publication of two editions of his now very rare New Commercial Atlas of the United States in 1875 and 1879, which included a number of Cram's rare separately issued railroad maps. This 1875 edition is among the rarest of all maps of Missouri to appear in a commercial atlas, this being the first example we have handled in 15 years. Attractive wash colors, which have been refreshed. Iowa on the verso.
