### Description:

A nice full color example of Munster's map of Africa, from an early edition of Munster's Cosmography. Munster's map of Africa is the first map of the African Continent. It is richly illustrated with vignettes showing a crown and scepter for various kingdoms, as well as an elephant, birds and a Monoculi (one-eyed man). The present example is in full color, including a reddish wash for the Red Sea! In all, a nice wide margined example of this highly important map. Norwich 2.
