Description:

Decorative and detailed map of Africa, exhibiting the present knowledge of Europeans in the first half of the 18th Century. The cartography along the coasts is relatively accurate, but the interior is still largely myth and conjecture. Large decorative cartouche and a second decorative advertisement in the lower left corner. Margins trimmed on all sides, with minor loss of image inside the neatline, and one small stain, but in all a good example. Based upon the work of Guillaume De L'Isle.
