**Description:**

Rare chart of New York Harbor, from Manhattan and New York Harbor to Raritan Bay in the south and Oyster Bay in the East.

The map is extremely detailed, with extensive sailing notes and surveys. It includes a massive profile view and three smaller profile views of the approaches to New York Harbor and vicinity.

A fascinating map, which rarely appears on the market.

**Detailed Condition:**

A few marginal pencil notes, minor fold split just entering lower image and some very faint waterstains in the margins, but generally an excellent example of a working chart of New York Harbor.
