### Description:

Detailed map of North Carolina, from the rare 1827 edition of Carey & Lea's *Geographical, Statistical and Historical Atlas of America*.

Many counties still not formed. Size includes text below map, which includes wonderful contemporary details concerning the topography, indigenous lands, rivers, climate, towns, population by county (divided into white, free colored, and slaves), internal improvements and natural curiosities. Most notable in the south is the notation of two sets of boundaries, one noted as being agreeable to the Charter. Attractive full wash color. The centerfold has been professionally reinforced to support an old fold split, with some minor restoration in the text below the map. Carey & Lea's Atlas is highly prized not only for its cartographic information but the marvelous information about each of the states and territories which is included. The atlas was issued in 6 editions in English, French & German between 1822 and 1827.

While the 1822 edition appears on the market, the 1827 edition is quite scarce.
