### Description:

Remarkable large format map of California (along with some information in the Lake Tahoe and Lake Humboldt areas of Nevada, reporting the extent of the Land Office Surveys through 1866.

The most notable feature is the list of 465 private land grants for which final surveys have been completed. These land grants were essentially the certification of the Spanish-Mexican land grants throughout California, including the lands granted to the Church around the various missions and the private land grants.

The map is highly detailed, naming towns, rivers, lakes, mountains, the details in the gold, silver and other mining regions, etc. An essential map for early California collectors.

### Detailed Condition:

Minor discoloration at folds and some offsetting.
