The World

Stock#: 21295
Map Maker: Walker
Date: 1798
Place: London
Color: Hand Colored
Condition: VG
Size: 14.5 x 8 inches
Price: SOLD

Description:

Elegant double hemisphere map of the world, containing many early cartographic myths and errors.

No Antarctic is shown. Australia still has a curious incomplete coastline. The coastline of New Zealand is similarly inaccurate. The NW Coast of America reflects the recent discoveries of Vancouver and La Perouse, but still predates Lewis & Clark's arrival. The Coastline of Alaska is highly inaccurate and the NW passage is still undiscovered. Hawaii is recently discovered. Nice decorative image.
