### Description:

Scarce map of Foggia, from Rossi's rare *Mercurio Geografico*.

The map is a tremendous example of the fine topographical style of Rossi's maps, elegantly tracing rivers through steep and well defined mountain valleys. Includes a key in the lower left, depicting the symbols used on the map. An uncommon late 17th century map , based on the reports of Giacomo Cantelli da Vignola.

A late 17th century map of the Foggia province in Southern Italy (also known as Capitanata, originally Catapanata, because during the Middle Ages it was governed by a catapan, as part of the Catapanate of Italy).
