**Description:**

A strikingly engraved example of this uncommon map published by Reiner & Joshua Ottens in Amsterdam, reflecting the current French and English Claims in North America. The map repeats much of the detail of the famous John Mitchell wall map published in 1755, and on which this map is presumably based. This example is apparently a rare early variant of Seller & Van Ee 58, lacking the 1755 date and having only 1 of the 3 keys generally found on the map, suggesting that this edition was likely an early or proof example, which may pre-date Mitchell's map. Very light foxing and very minor soiling, else a strong example of this uncommon work.
