Description:

Nice example of an early edition of Bradford's large map of the Republic of Texas.

In 1835, Bradford issued a small map of the Texas shortly before it became a Republic. In 1838, Bradford issued his Illustrated Atlas, a much larger and more lavish production, which included the present map. This early edition, issued on heavy paper, is perhaps the best of all of the early Republic of Texas maps to appear in an atlas. It includes all of the empresario land grants and colonies, as well as the early county configurations. The map is updated to include many of the new towns and place names in the growing Republic, as well as many early roads and other features.

Bradford atlases and this map of Texas are increasingly rare on the market.

Detailed Condition:

A bit faded.
