Description:

Scarce early 18th Century English Sea Chart of the East Coast of North America, which includes a second and more detailed chart of the region between Cape Henry and Long Island.

The map appeared in the *Atlas Maritimus et Commercialis*, published in London in 1728 as a competitor to Mount & Page's *English Pilot*. Such famous names as Edmund Halley and Daniel Defoe contributed to the publication, along with John Senex.

The large format inset of the Chesapeake region is of particular note, being one of the most detailed chartings of the region to date. Over 100 place names are shown, along with soundings, shoals, etc. New Jarsey and East New Jarsey are named, as are Bergen County, Essex County, Middlesex and others. Includes excellent detail around NYC. An increasingly rare map, which is seldom seen on the market, and often in much poorer condition. The map is one of 4 charts covering the Atlantic Ocean, although the charts were not issued in wall map format, only as atlas sheets.

Detailed Condition:

Long tear, expertly repaired on the verso.
