Description:

Striking map of the area around Ghent, including a decorative birdseye view of of Graven Castle,

This map appeared only in the very late editions of Blaeu's *Atlas Maior*. The map includes 2 coats of arms, 2 cartouches and an interesting scale of miles, held by a costumed figure. The details of the castle view are also quite striking.

This is the first example of the map which we have ever offered and our research suggests that it rarely appears on the market.

Detailed Condition:

Extremely wide margins (more than 3 inches on all sides). Includes an old library stamp and some notes in the margins, but far from the printed image.
