### Description:

Nice example of Coronelli's finely engraved map of Mexico, ornately embellished with two large decorative cartouches.

A classic map of Mexico, covering the same geographical region popularized by Ortelius in 1570 and presented throughout the Golden Age of Dutch Cartography by De Bry, Mercator, Hondius, Blaeu, Jansson and others. Coronelli was possibly the best Italian mapmaker of his time. He made globes, including one 5 metres in diameter for Louis XIV. From Coronelli's rare *Atlante Veneto*, one of the most decorative and ornate of all 17th Century Atlases. The map exhibits the fine engraving style of this coveted Venetian Atlas.
