**Description:**

Separately issued old color example of Gerard De Jode's map of the Holy Land, which also appeared in the 1593 edition of Cornelis De Jode's *Speculum Orbis Terrarum*.

Unlike examples of the map which appeared in the atlas, the present example has not text on the verso. Because it is known that many of the maps which appeared in the 1593 edition of De Jode's atlas were prepared some years before the publication of the atlas, we are speculating that this example was printed circa 1590. The map also exhibits a fine dark impression, suggestion a very early use of the plate.
