**Description:**

Rare large scale map Baja California, prepared by the French Government, based upon a Spanish Chart published the preceding year.

In addition to all of Baja California, the map depicts the area northward up to San Diego (with its name in the title) and a good portion of Mexico's northwest coast line, along with plans of Guyamas, La Paz and Pichilingue harbors. The map is based upon rare survey charts by the Spanish Direccion Hidrografia in Madrid.
