Description:

Striking example of Mercator's Ptolemaic map of the Middle East, from the 1595 edition of Mercator's *Geographia*, based upon the works of Claudius Ptolemy.

While perhaps most famous for his maps of the modern World and the first to use the name "Atlas" to describe a book of maps, one of Mercator's life works was a corrected and improved edition of maps based upon the work of Claudius Ptolemy. The first edition of Mercator's map of the Arabian Peninsula rarely appears on the market.
