Description:

Nice old color example of Johannes Blaeu's map of the Pedemonte region, from Blaeu's *Theatrum Sabaudiae*, first published in 1680.

The map includes 16 coats of arms of various regions depicted on the map.

The map was engraved by J. de Broen and is based upon a map of the region by G.T. Borgonio. The map is quite scarce on the market and frequently appears trimmed into the printed image, as it was larger than most of the other maps and plans in the atlas.

Detailed Condition:

Trimmed at the top margin into the neat line, with some minor loss of printed image, as was frequently the case with this oversized map. Old Color.
