Description:

Early and highly detailed map of South America, including excellent detail throughout. Many misprojections and early inaccuracies are still present throughout the map. The map was issued well before the breakup of the Spanish Empire in South America, and reflects the lack of Northern European knowledge concerning the interior regions, although the map was quite accurate for the time. From the 1662 edition of Sanson's *L'Amerique en Plusieurs Cartes Nouvelles...* the third atlas to focus solely upon America. A few minor spots, but overall a nice example.
