Description:

Nice old color example of Ortelius' map of ancient Italy which appeared in Ortelius's *Paregon*, beginning in 1601.

The present example has not text on the verso, which is not referenced by Van Den Broecke as corresponding with any known editions.

The map is based upon Gastaldi's map of Italy, supplemented with classical sources.

There is a bit of foxing and minor toning from an old mat, but the map will still look quite beautiful if framed.

Detailed Condition:

Old Color. Minor foxing, primarily in the margins and a bit of toning from an old mat
