Solis Circa Orbem Terrarum Spiralis Revolutio

Stock#: 2795
Map Maker: Cellarius
Date: 1660
Place: Amsterdam
Color: Hand Colored
Condition: VG+
Size: 20 x 17 inches
Price: SOLD

Description:

The path of the sun's annual rotation around the earth, from the northern tropic to the southern. The band of the zodiac is included, with names and symbols of the various signs of the zodiac, surrounded by cherubs and other embellishments. Andreas Cellarius was born in 1596 in Neuhausen and educated in Heidelberg. He emigrated to Holland in the early 17th Century and 1637 moved to Hoorn, where he became the rector of the Latin School. Cellarius' best known work is his *Harmonia Macrocosmica*, first issued in 1660 by Jan Jansson, as a supplement to Jansson's *Atlas Novus*. The work consists of a series of Celestial Charts begun by Cellarius in 1647 and intended as part of a two volume treatise on cosmography, which was never issued. Cellarius' charts are the most soughtafter of celestial charts, blending the striking imagery of the golden age of Dutch Cartography with contemporary scientific knowledge. A nice full color example, with a fold split repaired at the top, else a nice wide margined example. From the true first edition, lacking the plate number present on the second edition.
