Description:

Early edition of De Fer's scarce of the Turkish Empire, extending from Italy and the Eastern Mediterranean in the west to the Caspian Sea and Persia in the East and from the Ukraine and Hungary in the north to the Gulf of Arabia in the south.

Marvelous and highly detailed map of the region, centered on Cyprus. The map includes and extensive annotation on the Turkish Empire. There would appear to be at least 3 editions of the map. The first edition shows Danet's address on Pont notre Dame al Sphere Royale and makes no reference to De Fer's title, "Geographe de su Majeste Catolique." This edition shows Danet at the same address and includes the De Fer title as "Geographe de su Majeste Catolique". A later edition shows De Fer's address as Quai d'Orologie and includes the "privilege du roy 1715."

The map is quite rare on the market , with only one auction record and no dealer catalogue records in the past 27 years.
