Description:

Attractive large format map of the US & Mexico, including the rarely seen Territory of Colona (and early name for Colorado).

Very strangely shaped Utah Territory, with New Mexico Territory above Arizona. Nevada is also given a very unusual border with Utah and its southern tip (including Las Vegas) is in New Mexico. Washington and Oregon both extend to the Rocky mountains, and Shoshone is shown instead of Idaho. Massive Nebraska Territory, pre-dating Montana and Wyoming.

Texas is oddly configured and the French colony is highlighted in Blue. Pre-Gadsden border with Mexico.
